

Custom Protein Production Services

Tailored production of complex & specialized proteins

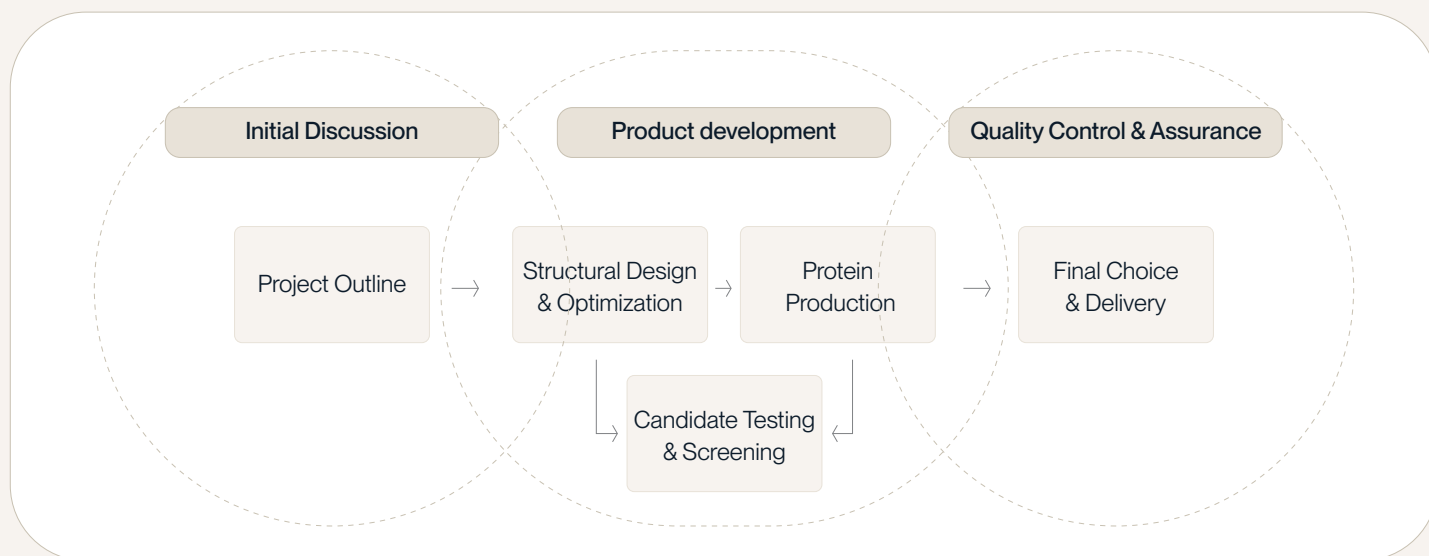

Complete expertise in construct design, expression characterization, and structure optimization

6-8 Weeks Turnaround Time

Proteins from Multiple Species

Service Features

Example Proteins

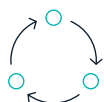

MHC Tetramers
Soluble TCRs
Transmembrane Proteins
• GPCRs
• Solute Carriers
• 4HB/Tetraspanins
• Ion Channels
Other Enzymes & Proteins

Expression Systems

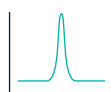

Mammalian
Bacterial
Yeast
Insect

Modifications

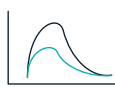

Tag: His, hFc, Avi, etc.
Species: Human, Cyno, Mouse, etc.
Biotinylation
Fluorescent labeling
Full-length protein or single domain
Liquid or lyophilized

Expression
Optimization

Custom Purity and
Endotoxin Levels

Bioactivity
Testing

Flexible
Production Scales

Transparent
